

Handshakes And Highfives, I Know You Know

I know you know
I know you know
This is all I want right now
Is to see your face looking through my bedroom door
You lay me up and we will settle down
We will lay side by side
And time would pass us by, just pass us by
[Chorus:]
We see our lives
They flashed before our eyes
Look into the past
We remember these times
It's so hard to forget
But now I realize
They came as a surprise
I know you know
I know you know
But still I stand here wanting more
And wait for your voice just to hear you say goodbye
Just to hear you say goodbye
[Chorus x2]
We are talking about *****
I hope it recorded me saying that

I'm not *****'ing yet
