

# hania rani, home (feat. staszek czyżewski)

home  
I feel like home  
and nothing there was before  
now worst to say "now place to go"

home  
I feel like home  
with empty hearts  
and craving hands  
with every ...  
and ...

cause there's a place  
...  
when dreams lives  
and sad is gone  
when never single blast of cold  
lost its skills forevermore

there's a place  
close to heart  
extremely worm  
but cold inside  
...  
please come back  
please come back home
