

# Hansen & Friends, All or Nothing

You say I waste my life away  
As I lie gazing at the sun  
A torn and twisted mind to overcome

I was and I will always be  
Close to the edge of sanity  
But that's what made it good  
What made me strong

I'm moving on  
Thinking nothing's wrong  
And I keep holding on to what I've known

All or nothing, the world is calling me  
The road is open wide but never free  
You see  
All or nothing, my heart is torn in two  
I never had a chance to be with you

Again I'm gone and far away  
And though a part of me would stay  
The other me keeps traveling further on

I'm moving on  
Singing a different song  
And I become estranged to what I've known

All or nothing, the world they gave to me  
The road was open wide but never free  
You see  
All or nothing, my heart is torn in two  
There never was a chance to be with you

All or nothing, is all I gave to you  
The pain inside not ending 'til it's through  
All or nothing, the "all" was mine to be  
The nothingness inside was always free

All or nothing, all or nothing

The road's not ending here for me
