

Hanson, Child At Heart

You can just breathe
You are no mistake
Though you're feeling strange
Just give your heart away
Like you're not afraid
To face another day
Though you're feeling far
You can chase a star
Like a child at heart

You've been careful
With your secrets
And you've been faithful
But your regress
You've been holding
Just to feel safe again
You've been hurting
You've been hiding
I've been failing
though, I've been trying

So, breathe
You are no mistake
When you're feeling strange
Just give your heart away
Like you're not afraid
To face another day
When you're feeling far
You can chase a star
Like a child at heart

Breathe
You are no mistake
Though you're feeling strange
Just give your heart away

You've been hurting
You've been hiding
You've been failing
Oh, you've been trying
Oh, oh, oh, oh

You can just breathe
You are no mistake
When you feeling strange
Just give your heart away
Like you're not afraid
To face another day
When you're feeling far
You can chase a star
Like a child at heart
