

# Hanson, Child At Heart

You can just breathe  
You are no mistake  
Though you're feeling strange  
Just give your heart away  
Like you're not afraid  
To face another day  
Though you're feeling far  
You can chase a star  
Like a child at heart

You've been careful  
With your secrets  
And you've been faithful  
But your regress  
You've been holding  
Just to feel safe again  
You've been hurting  
You've been hiding  
I've been failing  
though, I've been trying

So, breathe  
You are no mistake  
When you're feeling strange  
Just give your heart away  
Like you're not afraid  
To face another day  
When you're feeling far  
You can chase a star  
Like a child at heart

Breathe  
You are no mistake  
Though you're feeling strange  
Just give your heart away

You've been hurting  
You've been hiding  
You've been failing  
Oh, you've been trying  
Oh, oh, oh, oh

You can just breathe  
You are no mistake  
When you feeling strange  
Just give your heart away  
Like you're not afraid  
To face another day  
When you're feeling far  
You can chase a star  
Like a child at heart
