

Hanson, Get Up And Go

She plays guitar with her fingertips
She'll play your heart with her tender lips
She'll work it out until she makes the tips
And it's alright, yeah it's alright
Holding her tight in late December
I look in the stars and I remember
She doesn't mind when you offend her
And it's alright, yeah it's alright

Just a girl like you, and maybe just a
Just a guy like me, maybe we
Could take a walk on the wild side
Take a look and see
Get up and go
Just a girl like you, and maybe just a
Just a guy like me, maybe we
Could take a walk on the wild side
Take a look and take a look and go
Get up and go
So won't you go

What could I give when you've got all you need
And she looks at me like all I want's a little free
Every time I'm here with you it makes me see
That it's alright, yeah it's alright
We'll get away be in love we can make it better
All I need's a little time for us to get together
Happiness is just a step away
When it's alright, yeah it's alright

Just a girl like you, and maybe just a
Just a guy like me, maybe we
Could take a walk on the wild side
Take a look and see
Get up and go
Just a girl like you, and maybe just a
Just a guy like me, maybe we
Could take a walk on the wild side
Take a look and take a look and go

Ooh oh, ooh oh, won't you go
Ooh oh, ooh oh, won't you go
Ooh oh, ooh oh, won't you go
Take a look and, take a look and go

Seems like love has always found a way
But there's only so many hours in the day
All that I know is that you're here with me
And it's alright, yeah it's alright
Won't you tell me that you need me so bad
'Cause you are everything I've never had
Every time I look at you it hurts so bad
And it's alright, yeah it's alright

Just a girl like you, and maybe just a
Just a guy like me, maybe we
Could take a walk on the wild side
Take a look and see
Get up and go
Just a girl like you, and maybe just a
Just a guy like me, maybe we
Could take a walk on the wild side
Take a look and take a look and go
Get up and go

Get up and go
So won't you go (2x)

Take a look and take a look and go
