## Hanson, Surely As The Sun

As surely as the sun rises each day So my love will never change And though the years may come and go My love will only grow and grow

Sometimes I wonder what you see in me Cause I'm only a man flawed in so many ways you see

I want to share every moment of the day with you And I want to share every sunset and every sunrise And every moonlit night

As surely as the sun rises each day So my love will never change And though the years may come and go My love will only grow and grow

Sometimes I wonder what you see in me Cause I'm only a man flawed in so many ways you see

As surely as the sun rises each day So my love will never change And though the years may come and go My love will only grow and grow
