

# Haven, Til' The End

Never thought I'd say it till the end  
it goes way down, makes no sense  
and all the times you turn to run away  
when you bitch about the times  
the times I still hold dear

lately I'm sure words won't implore you to stay  
it won't keep me near you  
lately I'm sure words won't implore you to stay

never thought I'd say it till the end  
it goes way down, makes no sense  
and all the times you turn to run away  
when you bitch about the times  
the times I still hold dear

lately I'm sure words won't implore you to stay  
it won't keep me near you  
lately I'm sure words won't implore you to stay  
lately I'm sure words won't implore you to stay now

never thought I'd say it till the end  
it goes way down, makes no sense  
and all the times you turn to run away  
when you bitch about the times  
the times I still hold dear

lately I'm sure words won't implore you to stay  
it won't keep me near you  
lately I'm sure words won't implore you to stay  
lately I'm sure words won't implore you to stay now
