

# Hawthorne Heights, Sandpaper And Silk

Wait 'til after dark  
We'll try to make a mark  
One that stays until we're done

And we'll pretend again  
Lets try not to forget where we are  
And who we're with  
Who we will find.

Miles can cut this tie we've made  
The sharp side of the blade  
As these words play out  
They'll try and drag you down  
You feel like one of them

Who we will find

Miles can cut this tie we've made  
The sharp side of the blade  
Make sure that you can keep it  
Make sure you keep it in your heart (2x)

Miles can cut this tie we've made  
The sharp side of the blade  
Miles can cut this tie we've made  
The sharp side of the blade  
Make sure that you can keep it  
Make sure you keep it in your heart

Miles can cut this tie we've made  
The sharp side of the blade (in your heart)
