

Head East, Feeling Is Right

Mmmmm yeah
You don't really care about the good life
I don't think alot about the bad
You come from a world of beautiful people
I seen the ones that've been had
We may be different in the lives that we lead
But we got something that we both need
When I touch you and you touch me, it's right

The feeling is right
The feeling is right
It feels like the feeling is right
The feeling is right

Damn, this game of love is so exciting
There's nothin' else that can compare
Rules are simple and inviting
Good luck with the love that's there
You started needing cause you're sayin' alot
Your touch is lovin' but you're makin' me hot
You drive me crazy but don't ever stop, it's right

Chorus

Feels right for real good loving
We're here together, let love do the rest
Tonight it should be, you or nothing
I'm not goin' settle for nothin' but the best

Repeat chorus five times
