

Headnoise, Never Surrender

Never Surrender, never, never surrender
Have you compromised, have you left the fight,
wake up smell the coffee, your asleep in the light,
have you walked away, have you turned your back
can't you get it through your head you under attack.
Have you read the word when trials come your way,
we are soldiers of the cross can you hear us say
Never Surrender, never, never surrender
Will you join the battle, fight for liberty, we preach the gospel,
setting captives free, come and follow Christ
leave the world behind love the Lord God with all your heart, soul, and mind.
We will persevere when trails come our way,
we are soldiers of the cross, can you hear us say
Never Surrender, never, never surrender
Victims of rejected, nihilistic, self-seeking,
godless generation listen or it's over for you my friends
Join the battle, liberty preach the gospel, we've been freed,
follow Christ, leave the world, loving God,
all heart, soul, mind, persevere, till we go home,
we are soldiers of the cross, join our ranks
