

Heart Evangelista, A Little Bit

I was kinda hesitant to tell you
Should I let you know
I was never really like this before
Need I say more

Or maybe I'm confused when you are near me
I don't know what to do or I should be
There's only one thing in my mind
That's you and me

[Chorus:]
I'm a little bit of crazy
I'm a little bit of a fool
I'm a little bit of lonely
I'm a little bit of all
Oh, I need a cure
Just a little bit of you
And I will fall

I'm always on the run to see you
Would you allow me to
It wasn't my attention to hurt you
This feeling is true

Or maybe I'm confused when you are near me
I don't know what to do or I should be
There's only one thing in my mind
That's you and me

[Chorus:]
I'm a little bit of crazy
I'm a little bit of a fool
I'm a little bit of lonely
I'm a little bit of all
Oh, I need a cure
Just a little bit of you
And I will fall
