

# Heavenly, A Better Me

And if the world wasn't made for us  
And if life get wrong for you and I  
Oh where I should go  
Feel so high and low  
I am just trying to make my way  
When life begins  
So we muster all the courage  
There's nothing else at all  
You and you alone

Nothing matters anymore  
I am still here to carry on  
To find a reason to believe in me again

Make your dreams comes true  
To attain the paradise  
Your passion grow  
You should open up you heart

Set me free  
I am trying to be somebody  
Set me free  
One step forward to build a better me

Now it's time to use your mind  
To be a real man will take a while  
I can't wait  
I think it everyday  
My mother guide me everywhere  
She said you should realize  
Don't behave badly like a child  
I can prove it  
Achieve it  
Before she become's crazy, crazy, crazy

Make your dreams comes true  
To attain the paradise  
Your passion grow  
You should open up you heart

Set me free  
I am trying to be somebody  
Set me free  
One step forward to build a better me

Leading up the victory  
Bleeding deep inside of me  
To live on my own  
Singing your worries away  
Relax still concentrate  
Till I reach my goal  
What can I do  
To find the way

Slowly down the river  
If I make a wish tonight  
Thinking about yesterday  
All memories will clear up the sky

Make your dreams comes true  
To attain the paradise  
Your passion grow  
You should open up you heart

Set me free  
I am trying to be somebody  
Set me free  
One step forward to build a better me
