

# Heavens Gate, Planet Earth

(Music: Rettke/Paeth/Hunecke - Words: Rettke)

Standing at the shore, the wind is blowing  
fast with power  
like a fortress wall the rain is smashing  
pouring down  
feelin' all alone and noone there to keep  
me warm

Sun has turned into a black and frozen  
peace of coal  
in this poison gas no creature even can  
survive  
feeling all alone 'cause I'm the one who's  
staying alive

(BRIDGE:)

I hear a voice from the dark, it says:  
Dirty fools, look what we have done  
frozen tears in a black hole sun

My heart is dying, my soul's gettin' cold  
I never listened to warnings they told

(CHORUS:)

Planet Earth  
please, forgive me  
I'm mistaken  
this heavens on earth is a crying shame  
we have the choice to proclaim

Every day I watch the news, they say the  
world is bleeding  
we're responsible for every little peace of ground  
hand in hand we have the chance to say it loud

(BRIDGE / CHORUS)
