

# Heavens To Betsy, Axemen

Here we go axemen, here we go  
At the pep rally, I stole the show  
Wearing our purple and our whites  
Hey, look around there's so much white

Do you wanna live this teenage dream?  
The punk white privileged scene  
Oh quarterback, I'll steal your axe  
And cut it out of here

'Cause I'm out of my head  
I'm out of my mind  
I'm out of my life tonight

I'm going out there  
And I'm going fast  
And I'm going hard

And I'm going crazy  
Do you wanna watch?  
Do you wanna come?

'Cause I'm out of my head  
I'm out of my mind  
I'm out of my life tonight

I said oh teacher, teacher can you tell me what to do?  
Or do you believe those white lies, you are supposed to teach in school  
She said, don't believe everything you read that's written down  
She said don't believe and then I will burn the school down

'Cause I'm out of my head  
I'm out of my mind  
I'm out of my life tonight

I'm going out there  
And I'm going fast  
And I'm going hard

And I'm going crazy  
Do you wanna watch?  
Do you wanna come?

'Cause I'm out of my head  
I'm out of my mind  
I'm out of my life tonight

Cut off the part of me that's privileged  
Cut off the part of me that's privileged  
But that's too easy, this is work I've got to do  
High school, it's me in high school

'Cause I'm out of my head  
I'm out of my mind  
I'm out of my life tonight

I'm going out there  
And I'm going fast  
And I'm going hard

And I'm going crazy  
Do you wanna watch?  
Do you wanna come?

'Cause I'm out of my head  
I'm out of my mind  
I'm out of my life tonight

Here we go axemen, here we go  
At the pep rally, I stole the show  
Wearing our purple and our whites
