Heidi Newfield, Johnny And June

Oh there's something 'bout a man in black, Makes me want to buy a Cadillac, Throw the top back, And roll down to Jackson town, I wanna be there on the stage with you, You and I could be the next rage too, Hear the crowd roar, Make 'em want more, Kick the footlights out,

I wanna love like Johnny and June, Rings of fire burnin' with you, I wanna walk the line, Walk the line, 'Till the end of time, I wanna love, Love ya that much, Cash it all in, Give it all up, When you're gone, I wanna go too, Like Johnny and June,

I wanna hold you baby right or wrong, Build a world around a country song, Pray a sweet prayer, Follow you there, Down in history,

I wanna love like Johnny and June, Rings of fire burnin' with you, I wanna walk the line, Walk the line, 'Till the end of time, I wanna love, Love ya that much, Cash it all in, Give it all up, When you're gone, I wanna go too, Like Johnny and June,

Like Johnny and June, More than life itself, No-one else, This endless promise, They don't make love like that anymore, Is that too much to be askin' for,

I wanna love like Johnny and June, Rings of fire burnin' with you, I wanna walk the line, Walk the line, 'Till the end of time, I wanna love, Love ya that much, Cash it all in, Give it all up, When you're gone, I wanna go too, Like Johnny and June,

Like Johnny and June, And when we're gone, There'll be no tears to cry, Only memories of our lives, They'll remember, remember, A love like that.
