

# Helheim, Cosmic Winter

At the edge of global destruction  
Victory for the hazardous powers  
Hunger, darkness and frost  
cause mass extinction  
The cosmic spacerock-shower

Scene of apocalypse-lifeless  
As the impact takes its toll  
Behold the nightmare scenario  
Nuclear warheads can't  
ease our distress

Starfallen spacerocks  
Cause monumental havocs  
As we fail  
the cosmic winter will prevail

In far future milleniums  
a past alien order will arise  
A new dawn will break  
from the cosmic winter rape  
Recite and behold  
Revival of the gods of old
