

# Hell Is For Heroes, Three Of Clubs

I've been searching for a getaway  
A get out clause - a safe escape route  
If i could shape myself to fit the mould  
I would break it just to pass through

He's the one to make us feel like  
We belong here on the inside  
After all it's entertainment  
You will get just what you paid for

Open doors that i can walk through  
Open eyes that i can see through  
Give me skin so i can touch you  
Give me space so i can break through

I'll suffer  
I'll suffer with you my friend  
I'll suffer  
I'll suffer until the end
