

Hellias, A. D. Martyrology

Thousand wolves of hate, executioners covered with blood
One human being turned into dust
Four chambers of death, concrete nameless graves
Zero - history sick. Just here, just now...

Three plagues of insane: extermination, genocide wreck
Five years of slain, a new age of killing
Ten commandments - insignificant, worthless junk
Thousand and more and more bodies daily burnt.

Who murdered for necessity?
Who delivered death?
Who burnt humanity?
Who made this hell?

Million victims killed, slaughtered with no remorse
Million and next insidiously decoyed
Six flames of holocaust, decline of right senses
Zwei - Auschwitz - Birkenau - Arbeit macht frei

Who murdered for necessity?
Who delivered death?
Who burnt humanity?
Who made this hell?

Shrimps of mankind
Skull on forehead
Conscience was killed
Drunk with blood, blood

Pyres of victims
Flames and shameless
Atrocity
Nooo!!! No more!

Thousand wolves of hate, executioners covered with blood
One human being turned into dust
Four chambers of death, concrete nameless graves
Zero - history sick. Just here, just now...
