

Halloween, Indestructible

We reach the stars we touch the sky
The colours of the rainbow high above
we try to catch and take it with us
So many miles away from home
Who cares, 'cause we are not alone
The world is ours, tonight we will be winners

We are fighting for a world without oppression
We are fighting for a world where we can live in without fear

We're indestructible
'Cause we are one
We're indestructible
Though we're riding on a storm
Indestructible
We reign the world
We're indestructible
Yes we're fighting dusk to dawn
We're indestructible

We play to win, we pay the price
We run the game, we roll the dice
Gambling through the Devil's eyes like sinners
The world we're holding in our hands
We break the rules, we live intense
Glory, hope and pride we keep within us

It's a fight against the constant persecution
We are fighting for a world where we can rock on loud and free

We're indestructible
'Cause we are one
We're indestructible
Though we're riding on a storm
Indestructible
We reign the world
We're indestructible
Yes we're fighting dusk to dawn
We're indestructible
Indestructible

Strong and free we wanna be
Restless and inviolable
Living like there's nothing left to lose
Strong and free we're gonna be
Living independently
No one's gonna tell us what to do

We're indestructible
'Cause we are one
We're indestructible
Though we're riding on a storm
Indestructible
We reign the world
We're indestructible
Yes we're fighting dusk to dawn
We're indestructible
Indestructible
Indestructible
