

# Halloween, Just A Little Sign

Here I stand alone again  
Hundreds all around (hundreds all around)  
Didn't come here to make a friend  
But to listen to the sound (listen to the sound)

Something's growing in my plans  
As she looks into my eyes  
Now I smile the whole damn night  
But my dream acts cold as ice

It's time for just a little sign  
It's time, make believe the world is mine  
It's time for just a little sign  
It's time, make believe the world is mine  
Just a little sign

Shouldn't I dare to talk to her  
But what is it I would say (is it I would say)  
Surely I'd look like a clown  
For my smiles freeze on my face

It's time for just a little sign  
It's time, make believe the world is mine  
It's time for just a little sign  
It's time, make believe the world is mine  
Just a little sign

It's time for just a little sign  
It's time, make believe the world is mine

It's time for just a little sign  
It's time, make believe the world is mine  
It's time for just a little sign  
It's time, make believe the world is mine  
Just a little sign  
Just a little sign
