

Halloween, Just A Little Sign

Here I stand alone again
Hundreds all around (hundreds all around)
Didn't come here to make a friend
But to listen to the sound (listen to the sound)

Something's growing in my plans
As she looks into my eyes
Now I smile the whole damn night
But my dream acts cold as ice

It's time for just a little sign
It's time, make believe the world is mine
It's time for just a little sign
It's time, make believe the world is mine
Just a little sign

Shouldn't I dare to talk to her
But what is it I would say (is it I would say)
Surely I'd look like a clown
For my smiles freeze on my face

It's time for just a little sign
It's time, make believe the world is mine
It's time for just a little sign
It's time, make believe the world is mine
Just a little sign

It's time for just a little sign
It's time, make believe the world is mine

It's time for just a little sign
It's time, make believe the world is mine
It's time for just a little sign
It's time, make believe the world is mine
Just a little sign
Just a little sign
