

Helloween, Mass Pollution

Play hard and scream to make me wonder
If my voice will give up in pain
I love the sound of heavy thunder

No mass pollution
A contribution
To sound evolution
Go, go, go, go

We just love it loud
Bang and shout it out
We're no weapons of
Mass pollution
Raise your hands up now
'Till the final row
Having fun is no
Mass pollution

Nights, days, become a sonic psycho
All gain turned to full insane
Allied and proud we are the heavy nation

No mass pollution
A contribution
To sound evolution
Go, go, go, go

We just love it loud
Bang and shout it out
We're no weapons of
Mass pollution

Raise your hands up now
'Till the final row
Having fun is no
Mass pollution

Everybody tries to shape our mind
This is our life, no compromise

Make some noise
Make some noise

Yeah, yeah, yeah, yeah

We just love it loud
Bang and shout it out
We're no weapons of
Mass pollution

Raise your hands up now
'Till the final row
Having fun is no
Mass pollution

Make some noise
Make some noise
