

# Halloween, Nabataea

Way back in time was a nation sublime  
For they had what it takes to lead a good life  
Foremen believed it's because of some secrets  
They brought the fight and it never ended

Hush, don't cry  
Deep in the night come the raiders  
Shiver and pray  
Petra will fall to the Great

Oh Nabataea  
You came so far  
Now gone you are  
Oh Nabataea  
You morning star  
Now so afar  
Nabataea

People desire and people admire  
Some always try to reign with fire  
So are the seals, hence the old Nabateans  
Have disappeared under the wire

Hush, don't cry  
Deep in the night come the raiders  
Shiver and pray  
Petra will fall to the Great

Oh Nabataea  
You came so far  
Now gone you are  
Oh Nabataea  
You morning star  
Now so afar  
Nabataea

Petra, you were a shining star  
Unique in your time  
Petra, 2000 years on we still  
Suffer the same crimes  
Petra, today we're trying hard  
To reach your paradigm

We say no  
To the ultra-extreme  
No, we say no  
To the killers of dreams  
No  
No

Children, children have no fear  
Soon we all will disappear  
Children, children don't you cry  
Make no sound or we will die

Children, children have no fear  
Soon we all will disappear  
Children, children don't you cry  
Make no sound or we will die

Once there was a land midst of the chaos  
Floating like an island in old blood  
People lived in peace, there was no hunger  
Though they had no slaves, believe it or not

Once there was a nation without soldiers  
Never brought a war to other lands  
They lived without king or queen or ruler  
Once there was the first democracy

Oh Nabataea  
You came so far  
Now gone you are  
Oh Nabataea  
You morning star  
Now so afar  
Oh Nabataea  
Oh Nabataea
