

# Halloween, Windmill

Time goes wherever you are  
Time is your guiding star  
That shines through all your life  
Makes you feel and move

My dreams are out in the far  
So are yours a part  
Of secret fairy tales  
Dripped on the wings of a mystery mill

Windmill, windmill, keep on turning  
Show me the way, Take me today  
Windmill, windmill, hearts are yearning  
Longing for love and a chance to be free

Don't feel alone and depressed  
Someone will come at last  
To soothe your stumbling mind  
To keep it away from the evil storm

Windmill, windmill, keep on turning  
Show me the way, Take me today  
Windmill, windmill, hearts are yearning  
Longing for love and a chance to be free
