

Helmet, 410

Been trading insults all night long
Now we're just getting started
Well I think we got it
I see you talk, I see you opening your mouth
You just spit it out

All night long
All night
All night long
Are you alive?
I'm alive
I am alive
Alive

It's time to go you know
Well I let it go, good
I swear not another word
I'm a problem solver luv'in'
I got a 4 gauge shotgun
I'll kill us both immediately
You can hold on, so long

All night long
All night
All night long
Are you alive?
I'm alive
I am alive
Alive

Are you alive?
I'm alive
I am alive
Alive
