

# Hilary Duff, All About You

You could be my dirty secret  
(I could be yours)  
We could only be a rumor  
(Never be sure)  
You could meet me in the backseat  
(Late night)  
A ticket up in first class  
(Mile high)

Cause hey baby, baby you got me so  
So good  
Hey baby, baby I got it so  
So bad

Think you're all about me but I'm all about you  
Turn the lights down let me show you it's true  
Get a little taste of what I'm into  
Think you're all about me but I'm all about you, you  
I don't wanna keep a secret  
(No no no more)  
This is more than just a little thing, baby  
(For sure)  
I can't wait until the next time  
(We meet)  
Gonna kiss you in the daylight  
Out on the beach

Cuz hey baby, baby you got me so  
So good  
Hey baby, baby I got it so  
So bad

Think you're all about me but I'm all about you  
Turn the lights down let me show you it's true  
Get a little taste of what I'm into  
Think you're all about me but I'm all about you  
(Think you're all about me but I'm all about you), you  
Think you're all about me but I'm all about you

Midnight eyes  
Oh you came as a surprise  
You were right on time  
Think you're all about me, but I'm all about you

Think you're all about me, but I'm all about you  
(Think you're all about me, but I'm all about you)

Think you're all about me but I'm all about you  
Turn the lights down let me show you it's true  
Get a little taste of what I'm into  
Think you're all about me but I'm all about you, you

Think you're all about me but I'm all about you  
Think you're all about me but I'm all about you
