

# Himsa, Tapas

I'm open for your arms  
Present in your arms  
In the company of your arms  
I surrender to arms connected to all living things  
Each mindful breath brings me closer  
Raise my heart and sing  
Gala Jai Ma Gala Jai  
Take from me all that is unclean  
Ma! Ma!  
I only live If I let you live  
I only feel If I let you speak  
through me I'm the heavens  
you want to touch me I  
'm the fire in your bellies  
I am earth you want to dig me  
I'm your water you need me  
I am flesh you don't need me  
but you sink your teeth into me  
I am earth if you dig me  
You can't stand your feet without me  
I'm the heavens no one can see me  
I am fire you abused me  
I'm the earth you've scarred for money  
I'm your mother  
I made love for you and you just fucked me  
Mother fucker  
My love, my blood is clean burning fuel  
My skin will tremble at your touch  
I will erupt for you I will get you off me  
When I skin myself alive  
I will survive
