

Holden Avenue, Easy

I know that living is not easy easy
Surrounded by nowadays world
The faces all over are grinning grinning
showing how much they care
Market is endlessly selling selling
So far better days
And people all around are buying buying
Ideals made in usa
This style of life expanding
coursing every day
you have no place to run to
you have to live this way
Can we walk all along
Leaving this world on its own
Can we ease up our lifes
Living without stars and stripes
I know that it is not easy easy
to be with with such peculiar man
I know that is hard to please him please him
Doing everything that you can
Now everytime he needs bigger better
more expensive things
and every single night he's dreaming dreaming
fucked up american dreams
This style of life expanding
coursing every day
you have no place to run to
you have to live this way
Can we walk all along
Leaving this world on its own
Can we ease up our lifes
Living without stars and stripes
No one said that nice and easy
will be your life
but that's only one you've got no
no second try
You don't have to buy all crap they
they send to you
Don't stare at the stars and stripes like
some blinded fool
