

# Holly Dunn, Loving Every Minute

I once was in love for a week that felt like a year or two  
But I'm loving every minute of loving you  
Well I've spent too many nights that just couldn't end too soon  
But I'm loving every minute of loving you  
I like taking my time every time you kiss me  
I'd stop every clock to keep you right here with me

Oh I don't care if it takes forever until we're through  
Cause I'm loving every minute of loving you  
( dobro - guitar )  
I like taking my time every time you kiss me  
I'd stop every clock to keep you right here with me

Well there's nowhere that I wanna go and nobody I wanna see  
And there's nothing any better anywhere for me  
And I don't care if it takes forever until we're through  
Cause I'm loving every minute of loving you  
And I'm loving every minute of loving you  
Love love loving every minute love love loving every minute  
Love love loving every minute love love loving every minute  
Love love loving every minute of loving you
