Hoobastank, Connected

[Verse 1:] No one else Will help us to get through So by ourselves We'll know just what to do

[Chorus:]
We are connected,
We'll never be alone
We walk together,
Forever down that road

[Verse 2:] You and I Will share all that we know So close your eyes And just let yourself go

[Chorus:]
We are connected,
We'll never be alone
We walk together,
Forever down that road

[Bridge:]
And if you fall behind,
and don't know what to do
I promise I'll be waiting there for you...
(for you)...

Follow me into a better day We'll be alright, no matter what they say

[Chorus:]
We are connected,
We'll never be alone
We walk together,
Forever down that road

Road, road, road...
