

# Hoobastank, Never saw it coming

All of the things  
That happened just so I can be here  
Is pulling the strings  
Do I have company?  
Cause I'd like to think  
That I'm in control of my own destiny  
All of the signs begin to point the other way  
Who would've known  
That I'd be standing right here next to you  
Cause I never saw it coming  
Who would've known  
That I'd get control of things I do  
All the could have should have  
Never would've happened anyway  
Maybe it's me  
Or maybe there's something more to it  
I believe what I see  
Cause seeing is believing  
And I like to think  
That I'm in control of when and how I go  
What if I stepped outside  
And I got blown away  
Who would've known  
That I'd be standing right here next to you  
Cause I never saw it coming  
Who would've known  
That I'd get control of things I do  
All the could have should have  
Never would've happened to me  
All the could have should have  
Never would've happened anyway  
Happened anyway...  
I never saw it coming, I never saw it coming  
All the could have should have  
Never would've happened to me  
All the could have should have  
Never would've happened  
Who would have known  
That I'd be standing right here next to you  
Cause I never saw it coming  
Who would've known  
That I'd get control of things I do  
All the could have should have  
Never would've happened to me  
And now I know that everything  
That's going on around me  
Is meant to be  
They're gonna happen anyway
