

Hopewell, Praise Twice

Stand up
You keep
Sittin' around
You know you've drawn
Quite a crowd
Either pickin' it up
Or puttin' it down
He who sings prays twice
All through the night

Put your hands up
And spin around
You know John says you
Gotta play loud
If you wanna get through
To the chemical crowd
He who sings prays twice
All through the night

I've seen you try
I've seen you try
I've seen you stop trying

Put your hands up and spin around for me one time
Put your hands up and spin around for me one more time
Put your hands up and spin around for me one more time
