

HOSHI, Spider

Take me out of here
Somebody help
Somebody help me
Somebody help
Somebody help me
Somebody help me
Somebody help me

I can feel that I am in danger
I can't escape

A drop of water forms
This place is so bright
It's blinding
Not distracted step
Make sure you let go of the consciousness

I swallow my dry saliva
I can't relax not even for a moment
So emergency
It's too dangerous

I am out of breath
My body trembles
When you see me
When you see me
When your hand touches me
When your hand touches me
