

Hot Chip, Laws Of Salvation

Let the laws of salvation set love free

Lord let love be

Let the laws of salvation open me

Lord let love be

Let the laws of salvation open me

Lord let love be

Let the laws of salvation i'm set free

Lord let love be

Let the laws of salvation i'm set free

Lord let love be

Let the laws of salvation set love free

Lord let love be

Let the laws of salvation set love free

Lord let love be

[continues in background]

I wrote this down from a [?]

I could see your faces so clear

It's to try and ensure

No one you love will disappear

It tells you all you have to [?]

You can see it in his fear

And now i've lost you both

Won't you please be here

And now i've lost you both

Won't you please be near

And now i've lost you both

(When my feet and arms and)

Won't you please come here

(I can walk all day)

And now i've lost you both

(When my heart finds [?])

I miss you so dear

(I can fly away)

And now i've lost you both

(When my feet and arms and)

Won't you please come here

(I can walk all day)

And now i've lost you both

(When my heart finds [?])

I miss you so dear

(I can fly away)
