

# How To Dress Well, Cold Nites

Cold nites and harder days  
better light down and lay away  
have a hard face in foreign places  
tired of seeing love, tired of waiting

Uh but if you can do this  
ain't gonna stop until I do this  
uh but if you can do this  
ain't gonna stop until I do this

I will shock still ain't stop your own resume  
what was out of all  
take you 'cause tonight is tonight  
made you wanna testing me facing by the wall  
No one ever told you I was wasting all of my time, all of my time  
every time I wanna see you baby  
every time I wanna see you..for us, for us

Uh but if you can do this  
ain't gonna stop until I do this  
uh but if you can do this  
ain't gonna stop until I do this

No moment I take to get you into my arms again  
Uh saving out my life it made in love in a different man I am  
if I tell you every life can I still take you out my love  
tell me what I wanna do, tell me what I gotta do there

I can't see from how I bear..  
I pray for myself again
