

HRVY, I Don't Think About You

I'm not thinkin' bout if you're home alone
Walkin' round in my old t-shirt
I'm not thinkin' bout if you're out with friends
Try'na act cute when you flirt
I'm not thinkin' bout if when I walk out
You'll be standing at my door
And ...out of all the things I do...

I don't think about you
I don't think about you, no
I don't think about all the things that we've been through
don't remember who broke with who
I don't think about you ... but I know you do!
yes, I know you do

I don't care about all the promises
that eventually you broke
I don't care about all the words that you never said stuck in your throat
I don't care about if you are sorry
now and you're waiting by the phone
an out of all the things I do

I don't think about you
I don't think about you, no
I don't think about all the things that we've been through
don't remember who broke with who
I don't think about you ... but I know you do!
yes, I know you do
