

# Hurricane Dean, Flat Random Noise

there is someone looking up to me  
at least i thought so but now she  
is changing her behaviour  
she looks away, embarrassing me  
and i can not ignore

right in my head, i got the choice  
between black in black and flat random noise  
right in my head, i got the choice  
between black in black and flat random noise

such a beautiful girl  
in a beautiful world  
makes me losing my mind  
leaves the troubles behind  
my hopes and my dreams live in you  
like my fears and my worries do  
i feel close i feel distant but well  
you are my heaven, you are my hell

right in my head, i got the choice  
between black in black and flat random noise  
right in my head, i got the choice  
between black in black and flat random noise

right in my head, i got the choice  
between black in black and flat random noise  
right in my head, i got the choice  
between black in black and flat random noise
