

# Hurts, Redemption

i never felt  
this far from god  
i almost feel like givin' up again

in my bones  
in my blood  
there's sickness i will change  
if i could

bit the fire  
that rage  
it's inside me  
and rise to the top

Father help me  
do you understand  
all my life  
I've been a wicked man  
show me mercy  
comfort me  
i need to find Redemption

i just try to find some Redemption  
i just try to find some Redemption

I've never been this far from peace  
I am disappearing out of reach again  
In my head, in my heart  
There's a hollow, that's starting to show  
It's the poison that fills up the void  
And it's taking a hold

Father help me  
do you understand  
all my life  
I've been a wicked man  
show me mercy  
comfort me  
i need to find Redemption

i just try to find some Redemption  
i just try to find some Redemption
