Hurts, Silver Lining

There's a storm on the streets, but you still don't run
Watching and waiting for the rain to come.
And these words wouldn't keep you dry
Or wipe tears from an open sky,
But I know, but I know, but I know I'm right.

And I won't let you drown, when the water's pulling you in
I'll keep fighting, I'll keep fighting.
The rain's going to follow you wherever you go.
The clouds go black and the thunder rolls
And I see lightning-
I see lightning-

When the world surrounds you, I'll make it go away
Paint the sky with silver lining.
I will try to save you, cover up the grey
With silver lining.

Now there's no way back from the things you've done
I know it's too late to stop the setting sun.
You see the shadows in the distant light,
And it's never going to be alright
And you know, and you know, and you know I'm right.

And I won't get left behind, when the walls come tumbling in
I'll keep climbing, I'll keep climbing
The rain's going to follow you wherever you go.
The clouds go black and the thunder rolls
And I see lightning-
I see lightning-

When the World surrounds you, I'll make it go away
Paint the sky with silver lining
I will try to save you, cover up the grey
With silver lining. [x2]

Silver, silver, silver, silver, silver, silver lining,
Deep blue sky, deep blue sky.
