

# Hurts, Voices

say my name and save me once again  
just say my name  
too far gone  
is where I belong  
am I too far gone?

I can hear them in my head and I  
I can hear them and I want to get them out  
I can hear them in my head getting louder now

so endlessly  
the voices keep on calling me to rise  
the voices keep on praying for me  
the voices keep on praying for me  
I can't stop them now

each step I take  
I make the same mistake  
but they scream my name  
and I know it's wrong to keep marching on and on  
but I am too far gone

I can hear them in my head and I  
I can hear them and I want to get them out  
I can hear them in my head getting louder now

so endlessly  
the voices keep on calling me to rise  
the voices keep on praying for me  
the voices keep on praying for me  
I can't stop them now

I keep hearing then  
hearing them come  
hearing them voices  
I keep hearing then  
hearing them come  
hearing them voices  
I keep hearing then  
hearing them come  
hearing them voices  
I keep hearing then  
hearing them come  
hearing them voices

I heard them singing  
I heard them singing  
I can't stop them now  
I can hear them in my head and i  
I can hear them and I want to get them out  
I can hear then in my head getting louder now

so endlessly  
the voices keep on calling me to rise  
the voices keep on praying for me  
the voices keep on praying for me  
I can't stop them now

I can't step then now
