

# I Am Legion, Make Those Move

[Verse 1: Metropolis]

It's full force when I step to the fore  
Bringing you that fuel sourced fresh from the core  
The flow penetrates to depths on the floor  
Cutting sharp like I had the verse etched in a sword  
It's our time, merking on set, we drop the live rhymes  
A fine line, movement precise, connect the hive mind  
I write mine, thick ink strokes, hue like iodine  
The blueprint, these huge quotes that my mind designs

[Verse 2: Orifice Vulgatron]

Ungh, Beggars on a roll  
I'mma stay gettin' so my pockets stay swole  
Every day bangin' till my chest plate gold  
Cause the riddim ain't done if the lyric ain't cold  
I'mma keep reppin so you can live it up  
Beggars keep on kickin' and pushin' so give it up  
We ain't tryna chill or nuttin' so pick it up  
Get sick with it til I'm baggin' up a bigger cut

[Hook: Orifice Vulgatron & Metropolis]

We're coming in hard the taskforce  
Systems blowing up fast on dance floors  
We gotta make those move  
We're gonna make those move  
We coming up blasting that force  
Giving phat crowds just what they ask for  
We gotta make those move  
We're gonna make those move

[Verse 3: Orifice Vulgatron]

Fam, I'm a get this done  
I'm a keep slanging till the rest get bun  
See me, I'mma do it on my one's  
Yeah I'mma keep stacking dat gwop by the ton  
Listen man, I'm in it to win it so we be living like  
We only got a minute or so to really go  
So anybody swinging to get in my position  
Better recognise that we about to blow

[Verse 4: Metropolis]

We go deep when we're venting out the speech cuz  
And got that heavy bass blowing out the speakers  
Man are like "rah! How them breddars move sick"  
Too slick, how we drop the new shit, we got them heaters  
That's right, jetting on out, in a skyline  
Breezing out fools like Theo, down the byline  
It's high time, turn up the system and come we vibe like  
Beggar fam rippin' it givin' breddars the hype hype

[Hook]

[Outro]

See that  
It's like it came out of nowhere  
Jumpin' out the shadows 'n' shit  
Biaaatch
