

Ifi Ude, ArkTika

I'll stand beside you baby.
(And war'll be over, I will take care of you.)

Last night was colder, last night I heard a voice,
(And war'll be over) oo
Somebody was calling for me exactly for me (I will take care of you) o no naaa ee.
Last night was colder, last night I left ma home.
I left my home, to find you, and rescue you.

And for any moment
I'll be around, be around.
And for any moment,
I'll stand beside you. I'll be, baby.
And for any moment.
I'll be around, I'll be.

That world is melting, like ice it's time to go.
But, I'm gonna find you, rescue from all of your fear, baby, cause?

For any moment
I'll be around, be around.
And for any moment,
I'll stand beside you. I'll be, baby.
And for any moment .
I'll be around, be around.
And for any moment,
I'll stand beside you. Be?
