

Ifi Ude, Weapon of Love

i bring myself cloake in fear
i bring my oul i;m full of doubts
so afraid to talk about my feelings
and I sing this song as a weapon of love
so when the lights are going out
all the things I think about
including you and i
searching for paradise
feelings food in uninvited
taking every single cell
I through you will be my friend
but I fell in love too fast
when I love like a wave
covering every n my way
the only thing which can stop me
is the lack of your love

when the lights are down
all I thinka but is the lack of your love
your love to me
cause I like you much
too much
trying much, too much
to simply match us
so when the lights are going out
all the things I think about
are including you and i
searching for paradise
