

# Iggy Azalea, Change Your Life (ft. T.I.)

I'mma change your life, I'mma change it  
I'mma change your life (life) (x4)

[T.I.]

Yo, Hustle gang homey, real talk, no bullshit

[V1: Iggy Azalea]

You used to dealing with basic bitches,  
Basic shit, all the time.  
I'm a new classic, upgrade your status,  
From a standby, to a frequent flyer.  
Hop out your past life,  
And I'll renovate your future,  
Then I integrate my genius shit,  
We purchasin', not perusing.  
Yeah, I love your hustle baby,  
Just let me add a little bit of muscle baby,  
Joint venture, we'll partner up  
Until the shares erupt, and I up your wages,  
On a private island, DOLO.  
Where 1 meal costs a car note,  
Them broads before me was locals,  
Through customs accustom your wardrobe then.

Stamp passports, and we yacht past ports,  
Till the clocks fast forward.  
Till we dock blue shores,  
Where they don't do chores,  
We just get chauffeured.  
Damn, this is the life,  
Exclusive shit with all access granted,  
In the country where the accents are grand,  
And they landin' on top of foreign mansions.

[CHORUS]

I'mma change your life, I'mma change it  
I'mma change your life (life) (x4)

[V2: T.I.]

If you could listen more than you speak,  
I'd get you everything that you need,  
I'm talkin' bout red bottoms, LV,  
Even extension plus in your weave.  
I be blowing on strong weed when we ride,  
And everybody just lookin',  
But ain't nan nigga gon' hop up,  
They like 'Nah shawty, she taken!'.  
I'ma get you you up out that corner shop,  
Put you up in Neiman Marcus,  
Where you supposed to shop,  
Hey let me show you that watch  
You supposed to wear,  
Hey get up out that Honda Civic,  
Get your ass in here,  
Tell your Mom and Dad that you straight,  
Don't worry 'bout it you got it,  
You fly over in coach and fly back in a jet,  
Hustle gang on your chest,  
Ain't no problem don't stress.

[Iggy Azalea]

We spend our winters, in the Summer of Australia,  
Eating crumpets with the sailors,  
On acres without the neighbors,

We fast-forward four years more,  
We a long way from piss poor,  
And all the shit that we endured,  
I told you what you was in for so.

[CHORUS]

I'mma change your life, I'mma change it  
I'mma change your life (life) (x4)

Once you go great, you never go good,  
You never go back, even if you could.  
I'll show you my way, I got that good-good,  
You never go back, even if you could.

Have you ever wished your life would change?  
Woke up and you lived your dreams,  
Baby I could help you make that change,  
I can show you how to do this thing.

Have you ever wished your life would change?  
Woke up and you lived your dreams,  
Baby I could help you make that change,  
I can show ya, show ya (show ya, show ya...)

[CHORUS]

I'mma change your life, I'mma change it  
I'mma change your life (life)

Once you go great, you never go good  
You never go back, even if you could  
I'll show you my way, I got that good-good  
You never go back, even if you could

[Outro]

Once you go great, you never go good  
I'mma change your life, I'mma change it  
I'mma change your life (life)  
I'll show you my way, I got that good-good  
I'mma change your life, I'mma change it  
I'mma change your life (life)
