

Imagine Dragons, Friction

Get down with the victim
We both know you need them
You're stuck in the middle of all irrelevance

And your heart is beating
Cause you know that you gotta
Get out of the middle and rise to the top now

When you've made it
Won't you tell me what to do?
Cause i'm playin it
All wrong (x2)

You can't fight the friction (So, ease it off)
I can't take the pressure (So, ease it off)
Don't tell me to be strong (So, ease it off)
You can't fight the friction,
So ease it off

And get into the system
We both know you'll need one
At the tip of the needle,
It's taking over you

And your heart is beating
Cause you know that you gotta
Get out of the middle and rise to the top now

When you've made it
Won't you tell me what to do?
Cause i'm playin it all wrong (x2)

You can't fight the friction (So, ease it off)
I can't take the pressure (So, ease it off)
Don't tell me to be strong (So, ease it off)
You can't fight the friction,
So ease it off

Oh, why can't you let go
Like a bird in the snow
This is no place to build your home

You can't fight the friction (So, ease it off)
I can't take the pressure (So, ease it off)
Don't tell me to be strong (So, ease it off)
You can't fight the friction, so
