

# Imagine Dragons, I Wish

I never called you and now it's too late  
To say all the words that I've wanted to say  
The doctor said, "Oh, there's a fight up ahead"  
I should've been there by your hospital bed

So it rains every day, oh, it rains every day  
No, I haven't got the words to say

How I wish I was a better friend  
Before it was too late  
I wish that I would've been there in the end  
I wish I was a better friend

I wasn't there when you said your goodbye and I  
Replay in my mind 'bout a thousand times  
I wasn't there for those rivers you cried  
I was always too busy, no, I didn't make the time

So it rains every day, oh, it rains every day  
I haven't got the words to say

How I wish I was a better friend  
Before it was too late  
I wish that I would've been there in the end  
I wish I was a better friend

And every day, I wish you were here  
Oh, every day I wish  
Oh, every minute of every year  
I swear I feel you near  
Near me

How I wish I was (How I wish) a better friend (Better friend)  
Before it was too late  
I wish that I would've been there in the end  
I wish I was a better friend
