Imagine Dragons, Thief

if only you you could see the darkest place that you could be oh maybe then you'd understand

from desert heat to cobbled streets from broken home to the city beat there's so much more than you could know

so take me back when I believed back when I was unafraid just like a thief and all the heights that I could reach back when I was unafraid just like a thief

if I could live a thousand times if I could make a thousand tries maybe then I'd get it right the more I see the more I know that everyone just wants a show no we don't want to see the truth

so take me back when I believed back when I was unafraid just like a thief and all the heights that I could reach back when I was unafraid just like a thief

when the stars look down on me what do they see (x5)

so take me back when I believed back when I was unafraid just like a thief and all the heights that I could reach back when I was unafraid just like a thief
