

# Imagine Dragons, Tied

All this time I've spent with you  
All that we've been through  
Still we're holding on  
All this time I've spent with you  
I am tied to you

You call me up  
Just to say  
You think we're better off this way  
Leaves may fall  
Seasons change  
Yet we remain

A year away  
A year alone  
The tears have fall  
But we have grown  
The sun will rise  
The seasons change  
And here we are

All this time I've spent with you  
All that we've been through  
And we're holding on  
All this time I've spent with you  
Still I am tied to you

I call you up just to say  
How much I've thought of you today  
The leaves have fall  
The seasons change  
Yet we remain

A year has passed  
Our children grow  
And in their eyes  
I see your soul  
The sun grows bright  
The rain has gone  
And here we are

All this time I've spent with you  
All that we've been through  
And still we're holding on  
All this time I've spent with you  
I am tied to you

Time will heal our hearts but  
Were we doomed from the start or  
Were we planned in the stars or  
Is there any God at all?

Still we're holding on  
All this time I've spent with you  
All that we've been through  
Still we're holding on  
All this time I've spent with you  
I am tied to you
