

Impact, Do you know?

Do you know?
Time stands still in my heart
I don't know where you are
Longing for what I deny
Can we just turn it around tonight?
Without you I just go crazy (Do you know?)
All I think about is where you are (Do you know?)
That only you can save me baby
Going through this life all alone
Do you know?
And do you know?
And do you know?
And do you know?
When will missing you stop
Seems we lost before the start
Holding back what was inside
Can we just let it all out tonight?
Without you I just go crazy (Do you know?)
All I think about is where you are (Do you know?)
That only you can save me baby
Going through this life all alone
Do you know?
And do you know?
And do you know?
And do you know?
Don't look back on yesterday
I believe we can find a way
Don't let hopes and dreams fade
Don't hesitate it's not too late
I go crazy
